

## DIVORCED PEOPLE NOT TO MARRY.

COMMITTEE OF THE WHOLE ADOPTS THE RESOLUTION PASSED BY BISHOPS.

NO EXCEPTION IS MADE BY CHURCH.

After a Long Debate the Important Question is at Last Decided.

SAN FRANCISCO, Oct. 14.—The third and last week of the Triennial Convention of the Episcopal Church of America, opened today with a full attendance in both houses. Much work remains to be done during the limited time remaining before the hour fixed for final adjournment on Thursday, and there is a possibility that night sessions may become necessary.

### PRAYER SERVICE.

The preliminary prayer service in the House of Deputies this morning was conducted by Rev. B. Talbot Rogers, of Fond du Lac, the benediction being pronounced by Bishop Wells, of Spokane. When the House was called to order by President Lindsay, and the usual routine business of the morning hour disposed of, consideration of Section 4, the canon on the solemnization of matrimony was resumed in committee of the whole.

The House of Bishops this morning discussed proposed changes in the canons.

Tonight there will be meetings of the Board of Missions and the Church Temperance Society.

### RESOLUTIONS ADOPTED.

As soon as the House of Deputies had been called to order and the minutes read this morning, Rev. Dr. McKim had the resolutions providing for a permanent commission on capital and labor taken from the calendar by a two-thirds vote, and they were adopted almost unanimously.

### AS TO MARRIAGE.

The committee of the whole, promptly at half past 10, resumed discussion of the proposed canon on the solemnization of matrimony, and the Rev. Hudson Stuck of Dallas, Texas, repudiated certain charges that had been made of the moral condition of society in Roman Catholic countries on account of the non-permission of divorce, and Rev. Dr. Cameron Mann of West Missouri sustained Mr. Stuck, and while declaring that personally he thought there were cases where the innocent party in divorce for adultery should be allowed to marry, yet he favored the proposition not to require or allow the clergy of the church to officiate at such marriages on account of the burden of having to pass on the question of innocence without proper time or means for investigation.

### CLOSING THE DEBATE.

Rev. Dr. McKim of Washington, while holding to his interpretation of the Lord's words, said he did not wish to be understood as charging those who took a different view with a lack of scholarship. He declared that he had the uniform

## BRAVE MAN LOST HIS LIFE.

TRUCKEE, Cal., Oct. 14.—Ben Rose, an old resident of Truckee, and one of the most popular men of this region, was killed last night by being run over by a caboose in the yard at Hobart Mills.

He was trying to save another man who had fallen off the train, and in doing so was caught under the wheels.

He was about 45 years of age and leaves a wife and two children.

## THE NIGHT SCHOOLS WILL BE SAVED IF POSSIBLE.

The School Board will hold a special meeting this evening to consider the question of closing the night schools. There has been a rain of protests against closing them, but the board can only keep them open by raising money in an extraordinary way. None of the money belonging to the High School and common school funds can be used, as matters stand, for the night schools, and it is practically impossible for the Council to render any assistance out of the general fund of the city, which will scarcely be equal to the ordinary demands upon it.

While the School Board will unquestionably bring a mandamus suit in an effort to obtain a reversal or modification of the decree in the Stockton case, it is necessary to decide upon some expedient for raising immediate funds

## MAKE WAY FOR CROWE'S SURRENDER.

EDWARD A. CUDAHY WITH-DRAWS HIS REWARD OF \$25,000.

CITY COUNCIL WILL TAKE SAME ACTION.

Kidnapers Are Expected to Return to Omaha and Stand Trial.

OMAHA, Neb., Oct. 14.—Edward A. Cudahy today withdrew the reward of \$25,000 which he offered ten months ago for the capture of the abductors of his son.

The reward was withdrawn unconditionally and the notice will be printed in the afternoon papers.

At the suggestion of Mr. Cudahy and at the request of Chief of Police Donahue the City Council will take up the matter tomorrow night at its regular meeting and it is expected will withdraw the offer of \$25,000 for the arrest of the kidnapers.

[This makes way for the surrender of Pat Crowe.]

## RAILROAD MEN WILL MEET.

Harriman and His Colleagues Will Gather at Salt Lake.

OMAHA, Neb., Oct. 14.—President Burt, General Traffic Manager Stubbs and all the department heads of the Union Pacific have gone to Salt Lake, where they will tomorrow meet Mr. Harriman and heads of the Southern Pacific.

The meeting is considered an important one and will include discussion of traffic, operation and new lines. The matter of a new trans-continental limited which will reduce the running time between Chicago and San Francisco nearly a day, will also come up and probably be acted upon.

## BLEW UP THE SAFE IN AN OHIO TOWN.

BLUFFTON, Ohio, Oct. 14.—Burglars early today blew open the safe in the office of the Bluffton Milling Company here, with a large charge of dynamite. The building caught fire and the entire plant was destroyed, causing a loss of \$25,000. It is said the burglars secured nothing. They fired two shots at Night Operator Greer, who attempted to turn in a fire alarm, and escaped.

## WILL FOLLOW THE LATONIA MEETING.

CINCINNATI, Ohio, Oct. 14.—It is stated on good authority that if any meeting is held this fall at the Newport track it will follow the Latonia meeting. It is said that a number of prominent owners have sent in applications to the Western Jockey Club for reinstatement to enable them to race at Latonia.

## SOUTH AFRICA PAPER SUSPENDS PUBLICATION.

LONDON, Oct. 14.—A special dispatch from Cape Town says that owing to the restrictions of martial law the pro-Ber South African News has been obliged to suspend publication.

## "GIVE ME BACK MY BABY GIRL FOR I CANNOT LIVE WITHOUT HER."

MRS. LEVY'S CHILD IS ABDUCTED AT NIGHT THROUGH THE CONNIVANCE OF A POLICE OFFICER — CHIEF HODGKINS AND THE DETECTIVES ARE HUNTING FOR THE BABY—FATHER STOLE THE LITTLE ONE.

Mrs. Susan Levy, formerly Miss Harrington of Benicia and an acknowledged beauty of that place, stepped lightly from the overland train this morning and joyously proceeded to the home of her parents, Mr. and Mrs. M. H. Harrington, 803 Twelfth street, to clasp her 4-year-old daughter to her heart.

The moment she came beneath the parental roof, however, the joy fled from her heart and fear took its place, with trembling lips and tearful eyes she was informed that her child had been stolen on the preceding night, by her husband, whom she had left five months ago.

This morning the grandparents called upon Chief of Police Hodgkins, and asked his aid in restoring the child to its distracted mother.

### SECURES AID OF POLICE.

The husband, Daniel Levy, in kidnaping his own child, secured the services of a policeman and went to the home of the grandparents, who were temporarily caring for the child during the mother's absence. The policeman, without legal authority, demanded the child, it is alleged, and forcibly took it away from the grandmother, notwithstanding her fearful protests. Mr. Harrington, aged as he was, would have prevented the abduction physically if he had the strength left in his arms, but he had to satisfy himself with a verbal protest. He tells the following story of the abduction:

### OLD MAN'S STORY.

"Levy, my daughter's husband is as worthless a scamp as ever won a good woman in marriage. Five years ago he met her. What persuasions he used to induce her to marry him I do not know. He must have hypnotized her. He was a Hebrew and she was a Christian, and if I must say it myself, beautiful enough to have become the wife

## CHARGED WITH THE MURDER.

Coroner's Jury Places the Blame for the Killing of Machinist Rice.

SAN FRANCISCO, Oct. 14.—The murder of machinist Geo. W. Rice, who was beaten with a club last Friday, and then shot to death, has been charged by a Coroner's jury to Wm. Buckley, Chas. Donnelly, T. Woran and Ed Duncan.

Rice alighted from a street car on Friday, when a man struck him over the head with a club and another man then fired four shots into his prostrate form.

In the inquest today witnesses identified T. Woran as the man who struck Rice with the club. Buckley was identified as the man who did the shooting, and Duncan and Donnelly as members of the assaulting gang.

## ONE BANDIT WAS KILLED.

Two Officers Were Wounded in the Fight in the South.

LOS ANGELES, Cal., Oct. 14.—A special from Phoenix, Arizona, says: A dispatch from Solomonville, says two officers and one bandit killed in a fight between Arizona Rangers and outlaws on Upper Black River. In the extreme eastern part of the territory. This is probably the same fight reported from Bisbee last night.

The band is the remainder of a strong force of renegade whites and Mexicans which has made its headquarters there for three years. Rangers are on the way to reinforce their comrades, Juan Collado, the famous Mexican outlaw leader, is said to be in the renegade party.

## CARRIED A PISTOL THAT WAS MASKED.

LOS ANGELES, Cal., Oct. 14.—Seven Solomon was arrested last night while walking the streets carrying a revolver in his right hand covered with a white handkerchief. He was looked up, but has refused to answer all questions as to his mysterious conduct. He is not known to the police and declines to give any information concerning himself. He is being held on the charge of carrying concealed weapons.

of any man in Benicia. Whatever cunning art he used, I do not know. They were married and we gave them our blessing, but the viper in Levy soon manifested itself. He never supported her. He beat and abused her. She stood it patiently until the last vestige of respect for her husband vanished. The abuse and neglect my child was subjected to will never be known. She reluctantly brought suit for divorce, but she hated the disgrace and publicity of it.

### MADE THREATS.

"The moment the suit was filed, and my daughter left Levy he began threatening to steal my grandchild. She is as bright as a diamond, and the apple of all our eyes. If she was not a Jew, Levy would never have wanted to steal her. Levy took a trip to Benicia yesterday morning where my daughter was and asked permission to see the child. Since my daughter scorned him and left him he has joined the army. He said that he might be called to the Philippines at any time and begged to see the child just once. My daughter could not forget the man was the father of her child, and relented. She foolishly gave him the address in Oakland, with the result he stole our baby girl before our very eyes."

### MOTHER TELLS STORY.

Mrs. Levy granted a TRIBUNE reporter an interview. Her looks did not belie the words of her father. She was pale and distracted and agitated. On being asked if the story her father told was correct, she said it was, while her brown eyes flashed with indignation. She added to what her father said by accusing her husband of disposing of the community property while she was too ill to leave her bed. This is her story:

"After I left my husband I came to Oakland, where I was taken ill. I never left my bed for five months. While I was ill my husband slipped up to Benicia and sold our home, furniture and all. He pocketed the money and has spent it in dissipation and gambling. He left me to face the world without a cent and with only the love of my baby girl to help me in the struggle for existence. "When I gave him permission to see our baby I little dreamed that he would rob me of my last remaining comfort, my baby. I have been a good wife to him. I have always respected myself and have never done anything for which he or I should be ashamed."

### GIVE ME MY CHILD.

"Do you think," she asked, "that the courts will give me my child back if I can prove myself a good woman? I cannot live without my baby girl."

### TOOK A BRIBE.

Mr. Harrington further stated that he accused the policeman of having accepted a bribe to steal the child. In regard to the abduction he said: "When the officer rapped at the door, he inquired first if Smith lived here. He knew better. When he asked me what my name was and told it to me before I had time to reply, I knew something was wrong. I also knew there was something wrong by the skulking way Levy acted. I am firmly convinced that this outrage was perpetrated by the policeman's hand having been greased with money; the money very likely that belongs to my daughter from the sale of her home."

Chief of Police Hodgkins says that he is investigating the abduction and says that it looks as if something was wrong. He will not give the name of the police officer, reserving it until an investigation either substantiates or refutes the charges of bribery.

Captain of Police Peterson was on duty last night when the alleged outrage was committed.

Levy is supposed to have hidden the child in San Francisco. The San Francisco police will be requested to run him down and regain possession of the child.

The voice of the Japanese boy Frank replied in a peculiar drawl which the members say is characteristic of the discharged Japanese, and could not be imitated by any one else.

## FIRE IS NOW UNDER CONTROL.

Fire Fighters Did Great Work Last Evening and Saved Much Property.

PACIFIC GROVE, Cal., Oct. 14.—The fire in the foghest hereabouts is now fairly under control. A windless night and morning have enabled the fighters to do very effective work since 8 o'clock last night. There is now practically no danger of its reaching town, but patrols are keeping all along the line of the burned territory. A guard against any possible outbreak in new places.

The fire back of Monterey has also been subdued without having reached any of the houses and is now almost under control. There is also extreme vigilance being exercised to prevent a fire here spreading and there is little danger of any fresh outbreak. The heavy fog which drifted in this morning has been a boon to the inhabitants of the two towns, as well as to the fire fighters, for it has cooled the smoke-laden and heated atmosphere, and breathing is much more comfortable than it has been for the past four days.

## KING LEOPOLD TO VISIT NEW YORK.

ANTWERP, Oct. 14.—King Leopold has decided to visit New York. He announced this in an interview granted to the Burgomaster Saturday. His Majesty expects, among other advantages, to get in the United States many suggestions from the shipping arrangements which will prove beneficial to the ports of Belgium.

AUBURN, Cal., Oct. 14.—Edwin F. Wright, District Attorney of Placer county, died here today from the effects of an operation performed yesterday for gall stones. Deceased was a young man, unmarried, and exceedingly popular.

## CRAFTY JAP CANNOT BE CAPTURED.

ANOTHER ATTEMPT IS MADE TO DESTROY THE HOME OF DR. O. C. HYDE.

SERVANT GIRL IS TOLD TO LEAVE.

Family Stay on Guard All Night and Hear the Voice of the Jap.

The residence of Dr. O. C. Hyde was again visited last night by the mysterious fire bug, who fired the house three times last Saturday morning, while the house was surrounded by six detectives and hundreds of people. According to the story told by the inmates of Dr. Hyde's home, last night's escapade establishes almost beyond question the guilt of the Japanese boy "Frank," who was suspected on account of the many annoyances he had subjected the family to previous to the attempts to burn the residence.

George Harrington, a brother-in-law of Dr. Hyde, and a companion concealed themselves in the basement last night, looking all the doors and closing every avenue of ingress and egress.

After a patient vigil, which was participated in by the anxious and nervous women of the household, the vigilance of the watchers was rewarded by hearing a stealthy foot-step, coming from the direction of the residence west of the Hyde home. Harrington threw open the door quickly and said "Who is there?"

The voice of the Japanese boy Frank replied in a peculiar drawl which the members say is characteristic of the discharged Japanese, and could not be imitated by any one else.

The servant girl, on whom suspicion has fallen in conjunction with the Jap was at that time asleep, and could not have produced the voice which spoke to Harrington. To secure the servant girl and prevent her from making any attempts to burn the house down, it was decided earlier in the evening to lock her door, nail her windows down and further keep her in custody by tying a rope to the door so in event of her unlocking the door, it would still be secured by a rope.

The moment the alarm was given all the men of the house rushed out to catch the person who had spoken, but it was of no avail. The women rushed to the servant girl's room and found her fast asleep.

The servant girl was discharged this morning by Mrs. Hyde, not on account of being connected with the incendiary attempts, but owing to her mental peculiarities.

The expert chemist, in whose hands have been placed the intestines of several supposed victims, including Mrs. Pugh, has not yet made his report to the Coroner, and today's affidavit is based wholly on circumstantial evidence.

## SPEAKS IN FAVOR OF HIS CHIEF.

CAPTAIN COOK TELLS ABOUT SCHLEY'S ACTIONS ON THE BROOKLYN.

WAS ANXIOUS TO CAPTURE SPANIARDS.

Government Getting Little Consolation From Testimony Going On Today.

WASHINGTON, Oct. 14.—Captain Francis A. Cook was the first new witness called before the Schley Court of Inquiry today. He was called by the Navy Department, but as he also is on Admiral Schley's list of witnesses, he was considered, like Lieut. Commander Hodgson and Lieut. Doyle, as a witness for both sides of the controversy. During the war with Spain, Captain Cook was commander of the flagship Brooklyn and also Admiral Schley's chief of staff, thus occupying the same relative position to Admiral Schley that Captain Chadwick occupied to Admiral Sampson. His appearance on the stand, therefore, created considerable interest and his testimony was listened to attentively.

Other witnesses summoned by the Department for the day were Lieut. Commander Wm. F. Fullam, who was on the New Orleans during the Santiago campaign, and Lieut. Jos. Deale, who was on the scout ship Harvard and who volunteered to go ashore and ascertain whether the Spanish fleet under Cervera was in the harbor of Santiago.

These are the last witnesses which Judge Advocate Lemly expects to call for the present, and when they shall have completed their testimony he will "rest."

### SCHLEY'S WITNESSES.

A number of Admiral Schley's witnesses were in attendance about the court room today. It is expected that the first witness will be the Cuban pilot, Edward Nunez, and that he will be

Bakersfield, Cal., Oct. 14.—Mrs. Murphy, mother of Louis E. Murphy, who on Friday last filed a breach of promise suit for \$20,000 damages against George A. Rankin, a well known resident of this county and a prominent dairyman, today had an encounter with the dairyman, in which his and his wife's were freely used.  
As Mrs. Murphy and her daughter were going up the stairs inside the Court House, Mrs. Murphy saw Rankin at the foot of the stairs. She immediately ran down and, grabbing Rankin by the lapels of his coat, slapped his face.  
Rankin pushed her roughly from him, the wife mother falling to the floor.  
Quickly jumping to her feet, she picked up a cuspidor which was at her feet, and raising it above her head, threw it with all her strength at the surprised Rankin.  
The weapon struck him on the head, and he started to run down the stairs another cuspidor just missed his head. No arrests were made.

The Hawaiian Question is Settled at the Meeting of the Convention Today.

SAN FRANCISCO, Oct. 14.—The House of Bishops, so far as its action goes, has settled the Hawaiian island church problem, through the conference of its committee consisting of the Bishops of Pennsylvania, South Carolina and California, with the Bishop of Hawaii. The terms of the settlement, in brief, are the resignation of the Bishop of Hawaii, to take effect the first of next April; the formation of the Hawaiian Islands into a missionary district, to be placed for the present in charge of a Bishop designated by the Presiding Bishop.  
Resolutions were passed recognizing the difficulty under which Bishop Willis has labored and the good work he has done in Hawaii for many years, and giving him an honorary seat in the House of Bishops.  
After the result of the vote on the "canon concerning marriage and divorce" was announced, the Committee of the Whole rose, but was immediately reconvened. The amendment to the constitution adopted by the House of Bishops as a substitute for canon 37 referring to the discipline of persons marrying again after divorce was placed before the committee for consideration.  
Without action, the committee again rose, and after a had reported progress to the House, a recess was taken until 3 P.M.  
At this hour the House of Deputies proceeded to the election of missionary bishops in executive session.

**SCHLEY CASE.**  
(Continued From Page 1.)  
Santiago. The addition was as follows:  
"The information obtained at that time from Captain Allen and reported to the Commander-in-Chief some time near noon, was not considered sufficient at that time to cause a change in the plan that had always been adopted."  
Captain F. E. Chadwick also returned to the stand for the purpose of correcting his former evidence.  
**CAPTAIN COOK CALLED.**  
After previous witnesses had corrected their testimony Captain Cook was called. He was questioned by Mr. Hanna. He said he had been at Key West on May 19.  
"What information did you have at that time concerning the whereabouts of Cervera's fleet?" asked Mr. Hanna.  
"My impressions now are simply from rumor that they had left the Canary Islands and a part of them had been sighted at Martinique, and from consular information, or perhaps information sent by the Harvard that they had gone to Curacao. That is all from impression."  
Giving the reasons for the departure of the flying squadron for Cienfuegos, Captain Cook said the squadron had been sent to that port to intercept and meet the Spanish squadron, it having been determined, as we have believed at that time, to make Cienfuegos their objective point."  
He had understood that the Spanish fleet carried munitions of war for Havana and it was believed that they would go to Cienfuegos because of its inaccessibility to Havana.  
Captain Cook detailed a conversation between Commodore Schley and Captain Chester when the latter was on route to Cienfuegos. He said there had been talk between them about calling on the southern coast of Cuba.  
"The only thing I recollect," he said, "was that Commodore Schley questioned Captain Chester very closely as to the facilities for coaling ships on the south side of Cuba."  
"Do you know what information was received?"  
"I think they consulted a chart at the time and something was said about Cape Cruz. I recollect afterward looking at the chart there and it did not seem to be a favorable place. I know the subject of coaling was early considered, even before leaving Key West."

**FLYING SQUADRON.**  
Admiral Dewey—Was your answer that Cape Cruz did or did not look like a favorable place? I did not quite understand that.  
"I said I recollect very well my impressions at the time were that Cape Cruz did not seem a favorable place for coaling ships from coaling."  
Mr. Hanna—Perhaps the court would like to hear why you thought so.  
"I could not well see how the larger ships could get far enough in there so the firing of guns was heard and we went along side and coal ships."  
Captain Cook recalled the meeting of the fleet and the flying squadron en route to Cienfuegos, but could recall only very faintly the fact that the Commodore Schley had delivered to the fleet information from the Eagle at that time.  
**BLOCKADE ESTABLISHED.**  
"I did not receive any information," he said, "and did not consider the incident important."  
Captain Cook said that upon arriving off Cienfuegos on the morning of May 22 a blockade was immediately established. The firing of guns was heard and it was believed that Cervera had arrived and a fleet in honor of his appearance was on.  
Partworks on the shore were also seen, but they were not fired upon because it was considered desirable not to unnecessarily expend ammunition.  
"I think between that time and the arrival of the Adula it was presumed that the whole beach was occupied," he said. "We saw cavalry and others on the beach. The possibility of a boat landing was talked of. The idea was that we would have to go in pretty well to the westward and at night, I may have had some conversation with the Commodore about it, but I do not recollect. On the arrival of the Adula we fully expected to get all information."  
"Did you see any signal lights on shore while you were there?"  
"Yes, the first thing after we arrived, on May 22."

**THE SIGNAL LIGHTS.**  
"Where were those signal lights and what were they?"  
"I judged them to have been about six or seven miles to the westward."

**DR. WYTHE SUMMONED BY DEATH.**

**A PROMINENT MICROSCOPIST DIES AFTER A LONG ILLNESS.**  
**WAS KNOWN ON TWO CONTINENTS.**

Dr. J. H. Wythe, one of the most eminent microscopists in the United States died this afternoon of pneumonia at his home, 825 Fourteenth street.  
Dr. Wythe has been ill and feeble for some time. The immediate cause of his death was pneumonia.  
Dr. Wythe has been a recognized authority in microscopy in the United States. He was one of the pioneers in this state in this line of work. Several years ago he published a book entitled "Microscopy" which received very favorable mention in Europe. From time to time the doctor has revised this book and kept it up to date. He has done a great deal of original research, and the result of his tests have been read with considerable interest. His work was recognized in London to such an extent that he was made a Fellow of the Royal Microscopical Society.  
Dr. Wythe was born in Manchester, England, in 1822. He came to America at the age of 12 years and settled in Philadelphia. As a boy he made his own way and studied to be a physician. He graduated from a medical college in Philadelphia, and then studied for the ministry, and was ordained as a preacher in the Methodist Episcopal Church. When the war broke out Dr. Wythe was made an assistant surgeon of the United States Volunteers. He was in a number of battles in the early part of the war and was transferred to Sacramento. For several years he was the acting surgeon at Angel and Alcatraz islands. Dr. Wythe resigned after the war was over, and joined the California Conference. He was installed as pastor of the Powell street Methodist Church, which was the first Methodist Church in San Francisco. He was subsequently transferred to Oregon, and became President of the Willamette University, and at the same time acted as pastor of the Salem Methodist Church. He has been pastor of churches in Portland, Sacramento and Santa Clara. At one time he was President of the Oregon Conference, and served as such for four years. In 1875 Dr. Wythe made his permanent home in Oakland. Shortly after his arrival here he resumed the practice of medicine, and continued in this work until he was taken sick. During his career Dr. Wythe has had many honors thrust upon him. He was a member of the great scientific societies, and was a great student. He was the pioneer professor at the Cooper Medical College in San Francisco. Dr. Wythe's family consists of Mrs. Wythe and three children, Mrs. E. B. Dodge, the Rev. J. H. Wythe, Jr., and Miss Margaret Wythe, a teacher in the Oakland High School.

**THEY FELL BY THE WAYSIDE.**

Drunkenness and imprisonment marked the close of a journey on foot from Los Angeles to this city this morning on the part of Mrs. Thomas Gray, wife of a man of that name, who, with his spouse, reached here this morning.  
The journey was attended by numerous vicissitudes, privations, and miseries. Reaching here, the woman in weakness and despair took several glasses of liquor. She became intoxicated and was put in the City Jail.  
Her husband told a pitiful tale. He had been unable to work at his trade in Los Angeles, that of a stone cutter, because of an affection of the eye. He had an operation performed and the result was the loss of the sight of one eye and the impairment of that of the other.  
Husband and wife then determined to go to relatives in Seattle, where they would be cared for.  
They left their two children with friends in Los Angeles and started to walk to their destination.  
**WAGON DEMOLISHED BY TELEGRAPH CAR.**  
A Telegraph Avenue car crashed into and demolished the wagon of Donald Water this afternoon at 1:30 o'clock at the crossing of Third street and Broadway.  
Water was thrown to the pavement and sustained a painful scalp wound, the cut extending to the bone.  
Water is a farmer in Grizzly Peak canyon. He was crossing the intersection referred to. Telegraph Avenue car was running south at the time which, he says, he thought he would stop to enable him to cross Broadway on his way to a lumber yard. He says he shouted to the motorman to stop, but the order was unheeded, with the result referred to.  
Water is 60 years of age. His injuries were dressed in the Receiving Hospital by Steward Berchert.

**JUMPED FOUR STORIES TO HIS DEATH.**

SAN FRANCISCO, Oct. 14.—William R. Kemble, who kept a dressmaking establishment on Geary street, yesterday cut his throat with suicidal intent. He was taken to the Waldeck Sanitarium.  
This afternoon he overpowered his guard and jumped from a four-story window to the ground on the Jones street side, killing himself instantly.

**NOME OFFICIALS GET DELAY.**  
They All Pleaded for Time in the Circuit Court This Morning.

SAN FRANCISCO, Oct. 14.—Nearly all the officers of the Nome District Court were on hand today when the United States Circuit Court of Appeals took up the Nome contempt cases, which have been pending for many months.  
The officials who are charged with contempt pleaded for delay, and after the appeals for an extension of time had been made, Judges Gilbert, Morrow and Ross conferred for a few minutes.  
Judge Gilbert then announced that an extension of time would be granted until Thursday morning.

**AVERY M'CARTHY IS DIVORCED.**

SAN FRANCISCO, Oct. 14.—The Avery McCarthys are no longer husband and wife. The divorce suit brought by E. Avery McCarthy was tried before Judge Hubbard this morning, and after a brief hearing a decree of divorce was entered in the husband's favor on the ground of wilful desertion.  
Mrs. McCarthy was not present. She was, however, represented by her attorney, E. B. Young. McCarthy told his story on the stand. He was married to Lillian Wagner in April, 1892. They lived happily for many years and there are two children of the union. Allen, aged 8, and Lillian E., aged 3 years. About a year ago Mrs. McCarthy told her husband that she did not love him any longer, and would no longer live with him as his wife.  
From that time on, although dwelling under the same roof, they kept their separate apartments. By common consent the husband became guardian of the older child, while the care of the younger was entrusted to the wife.  
There was no cross-examination of McCarthy. By the decree of divorce the care of the children, respectively, remains as it was before the suit was brought. The property rights of the wife have already been adjusted. McCarthy has been transferred to his wife her share of the community property and so made provision for her and the younger child.

WILL VOICE OUR PRAISES.

While the warm spell of the past few days has been so pronounced as to be somewhat unpleasant it is nevertheless most opportune for California, for it is sowing seeds that will later on reap us a most bounteous harvest. At the Episcopal Convention across the bay delegates are in attendance from all parts of the world and representing every branch of business and social life, for apart from the churchmen there are lay delegates nearly all of whom are men of affairs.

When, as happened yesterday morning for example, they find in glancing over the day's news, dispatches from Atlantic States reporting that snow-storms are raging they are compelled by compulsion to admit that this is "God's country." A clear sky, a temperature that laughs at overcoats and wraps and invites living as much as possible in the open air, a pure, bracing atmosphere kept fresh and wholesome by the saline-laden breezes that blow in from the mighty Pacific, gardens thick with fragrant flowers that have no fear of winter severity, evidences of happiness, contentment and prosperity in every direction, commercial opportunities of so palpable a nature that even the eye untrained to business cannot fail to detect them—these are a few of the impressions that our guests will receive and which will stand out in their minds in still greater boldness when a few weeks hence they are back home again.

Needless to say, our praises will be sung by a thousand tongues as a result of these conditions. The Bishops, delegates, visiting churchmen and all will do splendid missionary work in our behalf for if they will only recite just what they saw and experienced it will be all we ask. California needs no exaggerated word-picturing to portray her attractions. It must be remembered, too, that the delegates—lay and clerical—are men of prominence in their home cities and that their declarations will be far more effective than those of the ordinary visitor. That this month to mouth advertising is the best of all has been proved here time and again, notably so in connection with the benefits we derived from the Epworth League Convention as conclusively shown by statistics gathered by the Passenger Association. The Episcopals will surely herald our praises as loudly as did the Leaguers, for, in addition to the enjoyable weather they have experienced, no more hospitable welcome could have been tendered than they have received. Both by press and public, in social and in clerical life everything that could make their stay pleasant has been attended to as thoroughly as possible and we can feel assured that when they leave us, California will be bidding farewell to what in the future will prove some of her staunchest friends.

Although the period of official mourning for McKinley ends today and the funeral garb that has been displayed on buildings and residences will be removed the memory of the martyr President will be kept green as long as the present generation survives. The national memorial, too, will carry his name into history, so although his tragic death was so lamentable, it will ensure for him an immortality that he would not have received had he quietly passed away in private life a few years later on.

THE BOER WAR.

Many months ago suspicions were aroused that Great Britain is not seriously endeavoring to terminate the war in South Africa and in view of recent developments in the English War office it is not likely that such is the case. It is surely strange that with the 200,000 men and 450 guns at his command General Kitchener could not make a more vigorous campaign than he has wrought, especially so as his inactivity is so greatly in contrast to the dash he displayed in the Sudan. One does not have to travel far either in quest of reason as to why England should desire such a condition of affairs. The heavy expenses entailed in maintaining a large military force are always a source of trouble with the taxpayers who, however, carry the burden uncomplainingly as long as there is strife pending, in which the national honor and prestige are at stake. To wind up the South African campaign would therefore mean to disband the mobilized troops and cut down the military forces generally, a contingency the War Department is anxious to avoid at this time. By dragging along the Transvaal affair however without resorting to any very costly operations the full armed force can be maintained without protest and that is the condition many people believe the authorities have brought about.

Reasons are plentiful as to why England should desire a particularly powerful organization just now. Up to within four months or so ago the conditions in China were such that at any moment Great Britain might have been called upon to throw a large army in the field. With Russia and Germany backed by the mighty hosts of the military system, England could not afford to take the chances of having to raise an army at short notice, so the South African excuse was a good one at that particular time. It comes in handy again now, for with Russia threatening the border land of Afghanistan and thereby imperiling the highroad to India, there is more reason than ever to have a large and well trained force ready to pour into the field at a moment's notice. Instead, therefore, of inability to terminate the South African campaign, it looks as though there is a lot of jockeying in the British War Office that is stretching out the hostilities far beyond their natural limit.

Piki Islanders are importing California nudes and are paying a big price for them on account of the cost of transportation. The ranchers down that way are evidently determined to pose before the world as being well heeled.

Pope Leo has decided not to create any more American Cardinals. He has doubtless heard of the vigorous crusade we are waging against the "Reds" and in consequence does not want to offend us by sending over any more hats of that color.

Russia is having trouble raising a loan. The White Czar seems to be "beyond the pale" of the financial world.

EXAMINATION FOR PROMOTION OF PUPILS.

County Superintendent of Schools Crawford has received a communication from F. J. Kirk, superintendent of public instruction, asking for an opinion as to the desirability of examination in the promotion of pupils. It is stated in the letter that the opinions of the various county superintendents is requested in order to determine the following proposed regulation:

"The County Boards of Education are hereby authorized to adopt rules and regulations not inconsistent with general law to govern teachers and schools in the matter of promotion from the various grades of the public schools of their respective counties. They may require written or oral examination to be given once a year or oftener to aid in determining fitness for promotion."

It is stated by the deputy superintendent that the letter will be read to the board at its next meeting and that a reply will be made recommending examinations.

FOOTPADS IN CLOSE QUARTERS.

Notorious Characters are Captured by the Police For Highway Robbery.

Frank Case and Charles Merrill, the two alleged foot-pads suspected of having held up Michael Gallagher last Thursday evening were charged this morning with highway robbery. There may be two charges, one of robbing Ling Sing a Chinaman about three weeks ago on the Webster street bridge and of having robbed Michael Gallagher on Thursday last.

The Chinese called at the City Prison and positively identified Merrill and Case as the men who held him up. They will be held on the charge of robbing the Chinaman, as the detectives believe they have a strong case against the men.

Case did a term of fourteen years for highway robbery committed in broad day light in San Francisco. He held up a doctor's wife on Nob Hill and tore the diamond earring from her ears. He was afterward pardoned.

Merrill's reputation is also bad, but his record consists of petty charges. Both men have been working for the past two months for Morton's Express and received \$1.10 per day.

Michael Gallagher, whom the suspects are supposed to have beaten, robbed and sandwiched has also been confined in the City Prison to compel his attendance as a witness when wanted.

OAKLAND GOLFERS OPEN THE SEASON.

The Oakland golfers opened the tournament season on the Adams Point links Saturday with the qualifying rounds for the Captain's cup tournament. This trophy, which is a perpetual affair and can never become the property of any player, represents the championship of the club, and has been the bone of contention among the club members ever since the club was organized. It was a sweltering day on the links Saturday and although the event was scheduled it was a doubtful matter whether the players would show up in numbers sufficient to warrant its being played. Most of the experts were on hand, however, and under the direction of Captain Orestes Pierce play in the inaugural contest was started on the links. The ground being very hard, scores were not as low as they might have been, although the returns were very creditable under the circumstances and as usual, Champion E. R. Folger turned in the best card. That the weather had much to do with the scores was apparent, as the scores on the second round were on an average more than six strokes to the bad. Eight players qualified to play in the tournament proper, which will start next Saturday, and will be a match play affair over eighteen holes. The scores were as follows:

E. R. Folger, first round, 42; second round, 45. Total, 87.  
R. M. Fitzgerald, first round, 40; second round, 50. Total, 90.  
T. W. Hutchinson, first round, 40; second round, 48. Total, 88.  
W. J. Johnson, first round, 42; second round, 49. Total, 91.  
U. S. Stratton, first round, 44; second round, 48. Total, 92.  
C. J. Belden, first round, 44; second round, 54. Total, 98.  
J. Higgins, first round, 47; second round, 51. Total, 98.  
C. J. Winslow, first round, 50; second round, 55. Total, 105.

In a three-hole play after the tournament by Fitzgerald, Johnson and Stratton, the first two named each won a round, while the Collector of the Port held up his end by playing the ninth hole on each round in two strokes.

LEGAL CONTEST OVER LIFE INSURANCE.

The suit of the Pacific Mutual Life Insurance Company against D. Edw. Collins and Louis J. Cordes, administrators of the estate of Herman Cordes, deceased, has been continued one week by Judge Hall.

Miss Helen L. Kaufman, who appeared for Louis J. Cordes, was not prepared to proceed with the trial of the case, and Judge C. N. Fox and J. B. Richardson, who appeared for the plaintiff, and Collins respectively consented to a continuance.

The suit is brought by the insurance company to determine the proper beneficiary to a \$5,000 insurance policy taken out by Herman Cordes, deceased. Collins claims that the policy should be paid to him under an assignment made during the lifetime of the deceased, while Louis J. Cordes bases his claim upon the fact that he is administrator of the estate to which the policy, as he avers, belongs.

OAKLAND MAN INSTANTLY KILLED.

Frank Costello a painter who lives at Market and Seventh streets, Oakland, fell from a building at 1266 Post street, San Francisco, Saturday afternoon and was instantly killed. He was 49 years old and leaves a wife and four children. His body was taken to the Morgue. F. V. Leder, living at 271 Minna street, who was working on the scaffold with him, saw a box on which Costello was standing giving way and attempted to save him, but they both went to the cement sidewalk, twenty feet below, together. Leder was taken to the City Emergency Hospital with a broken leg and lacerated wound of the scalp, while Costello's neck was found to be broken.

Ought They to Marry

And bring children into the world to suffer from an unlimited blood taint? People do not realize that foul blood may lurk under a fair skin, and that the fire smoldering in the blood of the parent may break into flame in the flesh of the child. Dr. Pierce's Golden Medical Discovery puts out the smoldering fires of scrofula. It cleanses the blood from disease taints, strengthens the weak lungs, heals the diseased stomach.

"Dr. Pierce's medicine has done wonders for my two sons," writes Mrs. M. Harlick, of Demeter, Oswego Co., N. Y. "Both had scrofula. I have lost two daughters in less than five years with consumption and scrofula. My eldest son was taken two years ago with scrofula. He has been in the lungs. I troubled him for over a year. He took Dr. Pierce's Golden Medical Discovery, and has not had it over a year. My younger son had scrofula sores on his neck, but has not had any since he commenced to take your medicine."

FARCE FOR THE DEWEY THEATER.

Manager Stevens Has Arranged For a Clever Play This Week.

Tonight, at the Dewey Theater, there will be a revival of the well known farce-comedy, "Mrs. Bridget O'Brien, Esquire."

The title role will be played by Harry Cornors, who is considered superior to the comedian Sheridan who originated the role.

A number of new features have been introduced in the piece, and the play has been diligently rehearsed under the direction of the star, and it is an assured fact that everything will move in a very smooth manner.

The play is an amusing one and is bound to create laughter from the rising until the falling of the curtain.

BISHOP OF KIOTO SPEAKS OF JAPAN.

Rev. S. C. Partridge, Bishop of Kioto, Japan, who for many years was in the church mission of Hankow, and who is regarded as being one of the most interesting preachers in the House of Bishops, preached last evening at the church of the Advent. In his sermon the Bishop turned to that place where he has worked so long and spoke of the conditions in Japan. During his address he said:

"Japan as a nation commands the attention of the world because of one of the wonderful political position it occupies today in the nations' convention and also because of its glorious history and genius in the art of hand-work. The little country has afforded the world a spectacle so unique that it can hardly be believed. The old adage that a nation cannot be born in a night does not hold true for there is the child springing full armed, a man, into the world's arena. It was but forty years ago that Japan was of the old world, and the changes she has passed through people gloried in their ignorance of modern civilization, and hung tenaciously to the old mysteries, and superstitions. In forty years their change has become so marked that the military forces of the little island empire, marched with the concerted powers of Europe on to Peking, but a short time past. They commanded the attention for their bravery in the firing line and when the world saw their discipline and self-restraint which guided them in all their actions wonder was expressed."

Harsh purgative remedies are fast giving way to the gentle action and mild effects of Carter's Little Liver Pills. They will try them, they will certainly please you.

What Do You Talk About

Don't talk about your troubles, above all, any ill-health or sickness. Nothing is more common than to hear long tales of illness and suffering, unless it be to bear those afflictions. You deepen, strengthen and prolong the effects of sickness by dwelling upon it in thought and speech. You can hasten your recovery by enjoying your return to health and showing your delight in it and that is the only way you should allow yourself to remind others of the ill you have endured. Never speak of strictly family affairs, and especially be careful not to allow anyone to hear any conversation, to criticize any member of your own family in conversation with even your dearest friend. And avoid too much talk of every kind about your health. You are naturally deeply interested in your brother's college experiences or your sister's coming-out party, but it is all rather colorless to people outside of your own house. There is nothing more becoming to a girl than a womanly reserve about her personal and family affairs. Beware of going into details in conversation upon such subjects. They are tiresome to any thinking person who has to listen. From the Woman's Home Companion.

# RAILROAD NEWS FROM WEST OAKLAND YARDS.

FREIGHT TIE-UP IS COMPLETELY BROKEN AND TRAINS ARE NOW MOVING ON SCHEDULE TIME — PERSONAL NOTES ABOUT RAILROAD MEN.

The blockade of cars in the West Oakland yards has been broken and the wheels are moving on schedule time. During the strike the inability of the merchants of San Francisco to handle goods when they are delayed on the San Francisco side caused an accumulation of loaded cars in the yards which threatened for a time to blockade traffic effectively.

There were over 1,500 loaded cars standing on the tracks at one time. It was with extreme difficulty that Yardmaster Burham and Assistant Yardmaster Cotton kept the cars moving. Not only did the loaded cars prevent a free movement of trains in making up, but the lack of engines was also a source of a great deal of overwork. Everyone connected with the department is drawing sighs of relief, and resting easier since the strike has been settled and the merchants of San Francisco are handling the goods consigned to them.

The congestion in the Oakland yards was due principally to the inability of the San Francisco traffic department to handle the cars on that side. The strike had been in operation only a few days when the small switching yards at Fourth and Townsend streets were literally congested with freight.

The Oakland yards did not immediately feel the effects of the blockade, but gradually the holdover cars became so numerous that it was next to impossible to handle the volume of freight on this side. At the moment when the West Oakland yards were least prepared to handle freight, the consignments of barley, oats, wheat and fruit from the interior came in a deluge. How near to an effective blockade came to being established, as far as perishable goods were concerned, only those in charge of the yards will ever know.

Over 4,000 cars were tied up in San Francisco and in the West Oakland yards. The release of these cars naturally facilitated the handling of freight, and now things are running as smoothly as before the strike.

## THE LUMBER INDUSTRY IS STILL ON THE INCREASE.

The lumber industry is on the increase. Two ships are loading with California sugar pine for Australia. The receipts of lumber at the yards will average about 100 cars a day, or approximately 1,500,000 feet per day, or about 437,500,000 feet for the year. Australia has been absorbing this enormous amount readily and it is expected that the demand for lumber in the future as it has in the past the figure will soon reach a billion feet of lumber per year.

The lumber merchants of the State are just awakening to the fact that a profitable field of investment is open in the lumber business. The California pine is peculiarly adapted for the Australian climate, being more nearly impervious to insects and other forms of animal life that destroy the woody fibres than is the wood of other States. The demand thus far has been running evenly with the supply, but indications point that the demand will exceed the supply shortly.

There is quite a movement also in redwood lumber to the interior. About seventy-five cars are being handled daily.

## MORE CARS FOR THE TIDAL CANAL EXCAVATIONS.

The work on the tidal canal is progressing so rapidly that it was found necessary to tie up twenty-five cars additional to carry away the dirt excavated from the canal by the giant shovel. Seventy-five cars were in use already, having been built especially for the canal work, but they were found to be insufficient and twenty-five were added, making the total number of cars exclusively used in carrying away the dirt an even hundred.

## EX-PRESIDENT HAYS LEAVES FOR SAN JOAQUIN VALLEY.

Ex-President Hays of the Southern Pacific Company and former Secretary Fitzhugh, have left on a visit to the San Joaquin Valley. The trip, it is stated, is purely a pleasure one and has nothing to do with the business of the Southern Pacific Company. Mr. Hays has had a desire to see the wonderful richness of the San Joaquin valley before he leaves for New York, and is merely gratifying his curiosity, which could not be gratified before owing to the lack of opportunity.

## MEN BURNED WITH OIL ARE RAPIDLY RECOVERING.

James Robinson and James Jackson, the two boiler makers who were so frightfully burned a week ago by the explosion of oil in a tank car, are reported to be out of danger and rapidly mending. Their faces and hands were so badly burned it was probable that they will be scarred for life.

## BUNTING VISITS OIL FIELDS IN PRIVATE CAR.

John A. Bunting, formerly a brakeman in the employ of the Southern Pacific Company, left Friday for Packersfield in his private car, "El Piedra." Since Bunting has become an oil magnate he does not forget his old companions at the yards. He dropped in one day and ordered a private car, after being informed by one of the superintendents that there were no vacancies and that he would have to wait again.

Bunting's private car is scarcely less grand than the one which carries that august personage, J. Pierpont Morgan. Bunting has not only a penchant for private cars, but also has a liking for ordinary cars. He owns no less than thirty tank cars, which are used in transporting oil from the San Joaquin Oil and Development Company, of

which he is president, to the San Francisco markets.

## J. PIERPONT MORGAN VISITS PASADENA WITH FRIENDS.

J. Pierpont Morgan, the railroad magnate and financial king, with a party of select friends, left Friday for a flying trip to Pasadena and return. Mr. Morgan's private car, "Genesta," was placed at the disposal of the party. The Southern Pacific officials were very anxious that Morgan and his party should see the stretch of country lying between Oakland and Pasadena.

## HAPPENINGS OF INTEREST GATHERED AT LONG WHARF.

Long Wharf presents the usual busy scene this week. The features of trade Official Weigher Jacobus reports are redwood lumber for the interior and white pine for Australia. The sugar shipments have been up to the average, as have, in fact, all other shipments.

The Santiago has finished discharging a cargo of sugar. The Minolta has finished discharging coal. The San Mateo is now unloading coal.

The ships Thallath and the Francesco Campa have finished discharging coke and pig iron and have left for San Francisco to be loaded. The ship Astral is taking on a cargo of scrap iron for New York.

## PERSONAL HAPPENINGS OF INTEREST TO RAILROAD MEN.

John Burham, head yard master, is suffering from weak eyes, but is still on duty. J. L. Frazier, division superintendent, made a thorough inspection of the yards this week and announced himself satisfied with the way in which the heads of the various departments are handling the business under their supervision.

Foreman Trapper of the Sacramento signal department of the Southern Pacific Company has returned to the Capital city, after having supervised the installation of the transformers of the new motor.

Inspector T. P. Fenelon will temporarily relieve C. W. Camper, during the latter's vacation of two weeks. Master Car Repairer Englebright is adding to the beauty of his office building, by having a beautiful garden laid out. The garden will be a joy providing the goats which roam undisturbed through the yards are not tempted to pull up the flowers by the roots.

Machinist Tom Cullum and wife have gone on a well earned vacation to Los Angeles, where they will spend two or three weeks in recuperating.

Engines Nos. 1451, 2028, and 2013 are in the repair shops.

Machinists Harry Connors and Al Anderson recently purchased new bicycles and are going to make a trip to Sacramento and return to test their endurance, as well as to enjoy a two weeks' outing.

The machinists' base ball team defeated the nine of Macababbes on Sunday last by a score of 25 to 15.

W. P. Wilkes, material clerk, has left for Santa Cruz for a two weeks' vacation. He is stated by his friends that he will claim a charming young woman from St. Helena as his bride before he returns.

Foreman Robert Yates of the machine shops received the sad intelligence that his brother died on Thursday in Kansas City. Mr. Yates took the first train East to attend the funeral services, going to make a very successful business man in Oakland.

James Lamb, foreman of the air compressing department, has returned from Oregon, where he spent a thirty day vacation with his daughters.

Engineer Collier is again behind the throttle after a few days' vacation.

## VINCENT'S MARKET.

Recently Renovated and Tastefully Arranged.

The reliable and popular market conducted by Mr. Robert Vincent at 553 Washington street, enjoys the reputation of handling exclusively the very best of meats, which at all times are disposed of at the closest possible prices. That is what has made this favorite place of business the busiest market in Oakland. The fire which a short time ago damaged the interior of this market has been repaired and many improvements have been made and the store artistically arranged and beautified. Mr. Vincent, ever since his advent in this city, has enjoyed a lucrative patronage from the public. He has a happy faculty of making customers as well as friends, which are many, and his business is steadily increasing, which is just as it should be for here you can depend upon getting just what is represented, and that means absolutely the best of everything in his line at the smallest figures consistent with the market. Now a most inviting appearance, and with a corps of prompt and courteous employees, the wave of prosperity is bound to continue in larger proportions than ever at Vincent's market.

## WANTS TO PROBATE THE KREPPER WILL.

The will bequeaths all the property to the widow, omitting the four children of the deceased because of their youth. The estate comprises realty valued at \$500 and cutlery and implements valued at \$2,340.

# CHURCH CHILDREN WORKING FOR A AT ST. PAUL'S, LATER VACATION.

Young People of Oakland Listen to Addresses by Noted Church Workers.

More than 500 children of the Episcopal churches of Oakland united yesterday afternoon in a children's missionary service at St. Paul's Church. Little people from the infant classes and young men and women upon the threshold of the serious work of the church listened for two hours to chats and addresses from one of the most celebrated Sunday-school workers in the United States. There was no formality about the speeches. The orators suited their words to their audience and spoke familiarly, often exhorting the children to replies.

The service opened at 2:30 o'clock, at which hour the united vested choir of the Church of the Advent and St. Paul's Church marched up the aisle, headed by a crucifer, and the clergy participating in the meeting and singing the missionary hymn, "The Morning Light is Breaking." Rev. Ritchie, pastor of St. Paul's, led, followed by Bishop Nichols, Bishop Edsall of Minnesota, Rev. Herman L. Duhring of Philadelphia, Rev. T. R. Randolph, Dr. Bakewell of Trinity Church and Dr. O'Meara of St. Andrew's.

After the recitation of the Apostle's Creed, the Lord's Prayer, the Ten Commandments and the collects of the day, Bishop Nichols introduced Rev. Herman L. Duhring of Philadelphia, one of the great leaders in Sunday-school work in the country. Dr. Duhring gave a familiar talk to the children, encouraging them to repeat after him parts of his discourse, in order to assure himself that his listeners were paying attention. To illustrate the cause and effect of missionary work, he used five circular pieces of pasteboard joined at one edge. The first was white to illustrate the purity of the world before sin came; the second black, to show the effect of sin; the third red, to illustrate the redemption; the fourth white, for a saved world, and the fifth blue, for heaven. Continuing, he said:

"I shall take for my text today this verse from Exodus: 'Speak unto the children of Israel that they go forward.' Of this text, I would have you remember the two words, 'go forward.' Do not think, any of you, that you are too poor or small to help. The largest week-day offering that I had last year was handed to me by the engineer of a train that I was just boarding, and he pulled it out of the pocket of his working clothes. I had appealed to many rich men, but this poor man gave the most. Take 'go forward' for your motto, and as you believe that San Francisco is going to have a million inhabitants and this Coast many millions, so believe in the spread of the gospel work to all earth's millions."

George C. Thomas, a Philadelphia banker and leading Sunday-school superintendent, was introduced by Bishop Nichols, who complimented him highly upon his ability and zeal for his work. In speaking of the general interest aroused by the convention, Bishop Nichols brought a smile by describing an encounter between Mr. Thomas and a boy wherein the latter asked, "Do you work for Pierpont Morgan's too?"

Mr. Thomas said in brief: "To every big steamship nowadays they have two side propellers to help the big propeller, and call them auxiliaries. The church in its missionary work has two great auxiliaries, the boys and the children. Last year I helped count the united Lenten offering of the Sunday schools and took pleasure in noting that it equaled the three-year offering of the Woman's Auxiliary. A simpler word for auxiliary is 'help.' Let us speak out, 'I stand for help.' It is not the amount of the offering, it is the spirit in which it is given, the sacrifice that it cost. 'E' is for 'earnestness.' We will never succeed as an auxiliary unless we are earnest. 'I' is for love. We must love the work in which we are engaged. If we do not love it, we do nothing. We must give, not to beat some one else, not grudgingly, but because we love to give. 'P' is for 'patience.' We must be patient in our work. If a man is not patient he is not worth a row of pins. We must not expect too much at once. Patience hath her perfect work."

"I want you to be a real help. I want to see every Sunday school in the United States united in this offering." Right Rev. Samuel Cook Edsall, D. D., the newly appointed Bishop of Minnesota, was the next speaker. In introducing him Bishop Nichols laid special stress on the fact that he was appointed largely on the strength of his work while Missionary Bishop of North Dakota.

In beginning, Dr. Edsall asked if there were any missionaries in the audience. Receiving no affirmative, he proceeded to convince his hearers that all who help on the work are missionaries. Continuing he said:

"I went one day to conduct services in a little hut they had not heard the gospel for months. After church a young woman came to me and said that it was only the fourth time that she had ever been to church. It was not because she did not want to, but she had had but four chances."

"Another day I conducted confirmation services. I confirmed a school teacher who had waited for that holy sacrament for years, and had walked to church that morning sixteen miles through the snow. 'Ag'us, an old man and very sick, was driven forty miles in a lumber wagon that he might be in the class. Never did I lay my hands in confirmation on a more earnest soul. These are just a few stories which teach us the need of our support for missions."

Dr. Edsall closed by telling an affecting anecdote of Rising Sun, the Indian who first brought Christianity to the Chippewas.

The congregation then rose and joined with the choir in the anthem, "Tell It Among the Heathen," while an offertory was taken up for the general support of missions.

## APPOINTED GUARDIAN.

Mary A. Davis has been appointed by Judge Ogden as guardian of the person and estate of Don Carlos L. Eaton, a minor. A bond in the amount of \$100 is required.

## WORKING FOR A LATER VACATION.

Tomorrow night the Merchants' Exchange will send a committee to the Berkeley Board of Education to explain the reasons which underlie the move to have the summer vacation in the public schools begin after July 4th, rather than at the time as now established. The committee will comprise A. Jonas, J. L. Champlin, A. Salinger, A. H. Schluter, H. M. Sanborn and Wilbur Walker.

The idea of a change originated with the Merchants' Exchange. It was inspired with the hope of keeping children away from summer outings until the unpleasant weather likely to be met with in the early part of the season should have passed, as also to enable the children to experience a stimulus of patriotism by taking part in a celebration of the Fourth of July at home, rather than passing the national holiday in the woods where there would be nothing to remind them of the occasion or its significance. Another idea which was that the retention of so many children here until mid-summer would have the effect of also retaining their parents and other members of their families here for the same length of time, thus stimulating trade for a number of weeks, when, as now is the case, it is more or less stagnant—residents of this city then spending their money elsewhere.

# WORKING FOR A LATER VACATION.

Committee of the Merchants' Exchange Will Visit Berkeley Board.

Tomorrow night the Merchants' Exchange will send a committee to the Berkeley Board of Education to explain the reasons which underlie the move to have the summer vacation in the public schools begin after July 4th, rather than at the time as now established. The committee will comprise A. Jonas, J. L. Champlin, A. Salinger, A. H. Schluter, H. M. Sanborn and Wilbur Walker.

The idea of a change originated with the Merchants' Exchange. It was inspired with the hope of keeping children away from summer outings until the unpleasant weather likely to be met with in the early part of the season should have passed, as also to enable the children to experience a stimulus of patriotism by taking part in a celebration of the Fourth of July at home, rather than passing the national holiday in the woods where there would be nothing to remind them of the occasion or its significance. Another idea which was that the retention of so many children here until mid-summer would have the effect of also retaining their parents and other members of their families here for the same length of time, thus stimulating trade for a number of weeks, when, as now is the case, it is more or less stagnant—residents of this city then spending their money elsewhere.

When the projected change was suggested to the local Board of Education, it was met with the answer that the local Board could not grant the request independently of the Boards of Education in both Berkeley and Alameda, the schools of which places closed at the same time as did those of Oakland.

The Exchange then wrote a letter on the subject to the Alameda and Berkeley Boards.

The Board of Alameda replied that it felt it could close its schools somewhat later in the season, but that it did not, at that time, see how it could make the radical change requested.

From Berkeley came an answer in the effect that the Board did not understand the purpose of the change, and asking the Exchange to send a committee to shed some light on the proposition.

When the request was received, the Exchange has decided to comply with as indicated.

## MODERN WOODMEN HOLD LARGE MEETING.

W. A. Northcott, Lieutenant-Governor of Illinois and Head Consul of the Modern Woodmen of the World, and Major C. W. Hawes, head clerk of the same society, were the guests Friday night of Golden Gate Camp, No. 7,236, of Woodmen, at an entertainment given in their honor at the Masonic Hall, corner of Twelfth and Washington streets.

"Addresses were made by Lieutenant-Governor Northcott, Judge H. A. Melvin of the Superior Court, Major C. W. Hawes and D. L. Thornton. Musical talent of this city and San Francisco rendered vocal and instrumental selections.

E. W. Bender, Charles F. Reuter and A. C. Bennett composed the Committee of Arrangements. Judge H. A. Melvin, an old friend of the Head Consul, delivered the introductory remarks. Lieutenant-Governor Northcott delivered an address upon the subject, "The Solution of the Question of Capital and Labor and Man's Duty to the Home." Among other things he said: "The key note of the hour is combination and co-operation. Shall this great force of organization be for the benefit of the few, or for the benefit of all? The solution of the century problem will come when the trusts and combinations of capital co-operate with the federation of labor."

## FUNERAL OF LATE EDWARD THARSING.

The funeral of Edward Tharsing, the conductor of the employ of the Oakland Transit Company who met a tragic end by falling from the top of a sixteenth street car, was held yesterday afternoon from James Taylor's parlors on Clay street. The funeral was under the direction of the Street Car Men's Association, Oakland Lodge No. 118, Odd Fellows, and Oak Leaf Lodge, Ancient Order United Workmen.

The services were conducted by Rev. E. R. Dille and Rev. Willis Martin, respectively pastor and assistant pastor of the First Methodist Church. The remains were interred at the Mountain View Cemetery under the ritualistic services of the Odd Fellows and Workmen.

The employees on the street railways who knew the deceased in life were taken to the cemetery in the car of their dead comrade. The car was a banquet of flowers was hung. Among the floral offerings was a miniature car with the motto "The Last Trip."

## BIG AUDIENCES AT DIETZ OPERA HOUSE.

Saturday and Sunday nights the Fischer Specialty Company gave two entertainments at Dietz Opera House that could hardly be improved upon as a vaudeville show. The acts were all new and clever, and every number was rendered in a way that won the applause and approbation of the large audiences. The Saturday and Sunday evening performances by this company have met with a decided hit, which may result in more performances being given each week. The management has been congratulated upon the able and satisfactory manner in which they have inaugurated the beginning of these high class presentations of up-to-date specialty acts.

The feature of yesterday's baseball contest between San Francisco and Oakland at Recreation Park in the metropolis was the home run hit by Henry Krug over the left field fence. Krug made a leisurely round the bases after making the longest hit of the season. The game was won by the Germans by a score of 11 to 5.

The morning contest in this city was a victory for the home team by a score of 6 to 4. Strehl and Bagan each batted out home runs during the game.

## UNITARIAN BOYS HAVE AN OUTING.

The senior boys' class of the Unitarian Church, under the direction of Rev. Dr. Snyder, had a pleasurable outing Saturday last in Hayward's canyon and vicinity. Among the places visited were Oakland Heights, the home of the poet Joaquin Miller, where they were entertained by the aged mother of the poet. In the visiting party of children were Edgar Willard, Earl Brown, Hallard Umbson, Charles Johnson, Charles Cutler, Malcolm Case, Edwin Birgin, Ralph Martin, Herman Dyerberg, Louis Abramowski, Cutler McLeagan, Wenday Porter, Charles Tamsins, Cecil Baker, John Klerman, Harold Cuveller, Herbert Johns, Wilfred Hughes, Frank Washburn, Virgil and Harry Hicks and Charles Mills.

## ROYAL ITALIAN BAND WILL PLAY IN OAKLAND.

The Royal Italian Band, which is now playing at the Alhambra, San Francisco, to crowded houses, will appear at the Unitarian Church in Oakland on Monday and Tuesday, October 21 and 22. This famous aggregation of noted musicians has met with a royal welcome wherever it has appeared. The Tacoma Ledger of recent date says:

"The audience that greeted the Royal Italian Band at the Tacoma Theater last night was one which realized the rare character of the opportunity afforded them. The enthusiasm the band has always aroused was intensified by the magnificent performance of the rich program which formed last night's bill. Chief among the band selections were the 'William Tell' overture, the finale of the 'Carmen' act, 'Gloconda,' and the gorgeous Carmen selection which closed the concert in such a climax as seemed well-beyond all human power to attain. All ordinary forms of criticism or comment lose meaning when applied to the sumptuous offering of Signor Creatore and the men who fairly follow his very heartbeats."

**DEATH'S CALL TO JAMES L. FOGG.**

James L. Fogg, a well known insurance man, died at his residence, 750 Thirteenth street, last night of paralysis.

The deceased was suddenly stricken nine days ago. His condition was regarded as very serious from the first, the patient losing use of his voice and suffering impairment of his other faculties.

The physicians who attended the deceased during his last illness ascribed the severity as the cause of paralysis. He was a very energetic man, despite the fact that he was 65 years of age, and it is thought that over-exertion in some way caused the stroke which resulted fatally.

Mr. Fogg came to this city almost a quarter of a century ago, and has during that time been one of the most active insurance men on the coast. He was a native of Maine. Three children survive him. One of them, W. W. Fogg, is a teacher in the evening school of San Francisco. There are two daughters aged 18 and 22 years respectively.

The funeral arrangements have not yet been announced.

ALAMEDA PEOPLE  
TO FIGHT FIRE.

Citizens Do Not Want the In-  
surance Rates In-  
creased.

ALAMEDA, Oct. 14.—Fearing that, as a  
result of the present controversy in the  
Alameda Fire Department, the underwrit-  
ers would increase the insurance rate in  
the business district, twenty-five promi-  
nent citizens have decided to organize a  
volunteer fire company and have peti-  
tioned the Fire Board to accept the com-  
pany as a part of the local department.  
The petition is as follows:  
"Alameda, October 3, 1901.  
"To the Honorable Board of Foremen  
and Engineers—Gentlemen: We, the un-  
derigned, citizens of Alameda, beg your  
honorable body to accept us as a hose  
company for and in the Alameda Fire  
Department, and if accepted we will con-  
form to the rules and regulations of said  
department, and we deem it necessary for  
the protection of property on Park street.  
"C. P. Naber, George E. Hand, Frank  
C. Harvey, H. E. Randlett, W. H. Fol-  
lath, Frank Bray, L. W. Schroeder, Wm.

more, Edward Edwards, E. J. Rogers,

Crowley, John W. Row, W. S. Jenkins.  
In discussing the trouble in the depart-  
ment which resulted in the filing of charges  
against Foreman John Morris of  
Thompson Hose Company, President For-  
der of the City Trustees said:  
"There is no reason why the insurance  
rates should be raised, for the department  
is not inefficient. I realize that there  
should be more harmony in the depart-  
ment, but that is no reason why the rates  
should be increased."

## DONATION DAY WILL BE HELD AT HAYWARDS.

EVERYBODY IS EXPECTED TO  
TAKE PART IN STREET  
WORK.

STROBRIDGE RESIGNS  
AS A TRUSTEE.

Interesting Notes Gathered in the  
Capital of Eden Town-  
ship.

HAYWARDS, Oct. 14.—"Donation  
Day" will soon be held. All the peo-  
ple in this part of the country who  
have a team and wagon, and who wish  
to help the town, will donate a day's  
work towards leveling down A street  
and carrying the earth from the same  
to the school grounds.

Trustee Langan states that already  
there has been a great many volun-  
teers to assist with the work and it is  
thought that a great many more will  
get in line before the day on which  
the work begins.

The reason why the people have  
been asked to assist is that some time  
ago the creek which runs through the  
school grounds was covered with a  
culvert at a large expense to the city,  
and to have the place filled in would  
cost considerable more than the city  
would care to pay.

Considering the fact that it was to  
the interest of the parents of the pu-  
pils that the school be kept in a sani-  
tary condition, it was requested that  
the people of the town assist in the  
work. Another improvement will be  
effected at the same time. A street,  
long needed grading, and this will  
bring it down to the proper level, and  
there will be no expense connected  
with the work.

FILED AN ANSWER.

Several days ago Crosby and Ryker  
filed their answer to the complaint of  
H. Petermann, in the latter's suit for  
damages. In their answer the de-  
fendants deny the allegations made by  
the plaintiff and allege that the leases  
made by Mrs. Petermann to Mills &  
Jones, acting for the Federal Salt  
Company, were binding. The suit  
will come to trial shortly and promises  
to be quite interesting.

to be as interesting as those in the  
past.

## WILL WEAR NIGHTGOWNS AT THE COLLEGE.

U. C. STUDENTS WILL FOLLOW  
CUSTOM IN VOGUE AT  
PRINCETON.

LARGE RALLY OF  
THE FOOTBALL MEN.

Great Crowd is Expected to See  
the Boys in Their Queer  
Costume.

BERKELEY, Oct. 14.—Following the  
Princeton custom, the students of the  
University of California will appear in  
their nightgowns and pajamas at a  
football rally next Friday night.

The affair, which will be in the form  
of a send-off to the Freshman football  
team, which will meet Stanford on the  
following Saturday, will take place in  
Harmon gymnasium.

Representative alumni from different  
parts of California as well as members  
of the University faculty will be pres-  
ent to give addresses.

Owing to the uniqueness of the cos-  
tumes which will be worn, it is ex-  
pected that the gymnasium will be  
thronged by the men of the college.

DO NOT WANT LE CONTE'S  
PICTURE IN SALOON.

BERKELEY, Oct. 14.—Considerable  
consternation was caused in collegiate  
circles this morning by the appearance  
of the following self-explanatory edi-  
torial in the Californian, the University  
of California students' daily.

"The Californian is in receipt of ad-  
vertising copy from a Mr. R. P. Whig-  
ham of San Francisco, in which he an-  
nounces a raffle of a portrait of Profes-  
sor Joseph Le Conte, the raffle to be  
held in the latter part of the term, and  
in the 'Palace of Art,' a notorious  
saloon of the city. If the gentleman  
had been even slightly acquainted with  
the advertising policy of the Californian  
he would most certainly have se-  
lected some other publication through  
which to announce his raffle to the  
student body. The Californian is ad-  
vertising neither breweries, beer joints  
nor saloons of any kind or description.

"It is expected that by far the greater  
majority of the chances will go to  
students of the University. The method  
of disposing of the portrait may or  
may not be objectionable. The place  
at which the raffle is to be held is  
certainly most objectionable, and the  
student body should see to it that the  
portrait of Professor Le Conte is never  
allowed to grace the walls of the 'Pal-  
ace of Art' or that the walls of the  
'Palace of Art' are never allowed to  
disgrace the portrait of Professor Le  
Conte. The success or failure of the  
raffle is entirely dependent on the stu-  
dent body. There can be no excuse for  
countenancing the scheme in even the  
slightest degree until we can imagine  
Professor Le Conte allowing his por-  
trait to be placed on exhibition in that  
place. Tried by this standard, the  
utter failure of the scheme would be  
assured.

"Having devoted this much space to a  
free advertising of the proposition,  
the Californian can only suggest that  
every student take it upon himself to  
see that the raffle, which is perhaps  
had enough in itself, becomes an abso-  
lute failure."

\$5. Others have had smaller presents,  
which cause the children, inasmuch as  
they get five cents' worth of candy in  
each package of the prize winner.

WON GAME FROM THE  
VISITORS.

WARM WEATHER  
IN THE VALLEY.

Horsemen Are Taking an Inter-  
est in the Race Meeting  
at Pleasanton.

LIVERMORE, Oct. 14.—The baseball  
game yesterday between the Maxwell  
Club of Oakland and the Howard Tail-  
oring Company's Club of this place re-  
sulted in a victory for the home team  
by a score of 12 to 11.

BASEBALL PARTY.

The party given by the Howard Tail-  
oring Company's baseball team at In-  
dependent Hall on Saturday evening  
was largely attended and a neat sum  
was netted for the fencing fund. The  
boys are trying to raise sufficient  
money to fence in the baseball  
grounds.

GAVE A BANQUET.

The local lodge, Order of Hermann  
Sons, was visited by the grand officers  
Saturday night. The newly elected  
officers were installed and several new  
candidates were initiated. A banquet  
was tendered the visitors and a most  
enjoyable time was passed.

WARM WEATHER.

The warm weather still continues in  
the valley, much to the discomfort  
of visitors. Old Sol shone down very  
strong all day yesterday, causing the  
thermometer to climb up to the 90 de-  
gree mark, something unusual for Oc-  
tober.

PLEASANTON MEETING.

The horsemen of this section are  
taking a lively interest in the two  
days' racing to be held at Pleasanton  
November 1st and 2d, and no doubt a  
large crowd of our citizens will attend  
on both days.

dition.

The new store on School street is nearly  
completed and will be open for busi-  
ness in a few days.

A fine residence is being erected for Mr.  
Childs on a slightly location in the Laurel
